MEMORANDUM

John:

The new cost figure for the explanation and justification will be coming up from O/Personnel as soon as possible.

The memorandum to the Bureau of the Budget follows the suggested format set forth in BOB Circular A-19. It is for your signature. As you know, you have signed previous submissions as has LRH.

The wording of the explanation and justification follows from Phil Kelleher's statements in the House Report.

Ed Proctor renewed his query re legislative action on "Q" clearances, to provide the same benefit the military enjoys, through [REDACTED] last night. I advised it was not possible in this package, but that I would get together with them on the subject. I also advised the DD/S, DD/S&T, and DD/P representatives that we will meet at any time on proposals they may have.

A copy of H. R. 16306 and the House report are also enclosed.

[REDACTED]
